Thank you for your interest in raising awareness of YWCA's groundbreaking new report: *We've Been Robbed: Young Women and Gender Diverse People's Housing Experiences and Solutions*.

Please find below a social media tile and recommended caption for promoting this report.

Background on the report

In 2024, YWCA Australia partnered with Swinburne University of Technology to investigate the housing experiences of young women and young gender diverse people across Australia.

Led by Professor Wendy Stone, the research has gathered lived experiences from a diverse range of young women and young gender diverse people to shine a light on the challenges and solutions surrounding housing security for young people in Australia.

I recently attended YWCA's launch of their new report on gender inequality in Australia's housing market. This report gathered lived experiences from a diverse range of young women and young gender diverse people, and what is clear is that we need to take real steps to ensure young women and gender diverse people are given an equal opportunity in our housing market.
